Junior Software Developer with knowledge of HTML5, CSS3, JavaScript, SQL, Java and Python fundamentals. Enthusiastic about backend development and full-stack projects, seeking an opportunity to apply coding skills in a professional environment.

EXPERIENCE

Software Development Intern

15 Sept 2025 – Present

Kodnest Technologies, Bengaluru, Karnataka

- Intern at KodNest Technologies, where I acquired practical skills in Java, Python, MySQL, Frontend Technologies, Manual Testing, contributing to real-world projects and learning directly from industry professionals.

Remote Intern - Ethical Hacking and Penetration Tester

Dec 2024 – Jan 2025

CDAC, Noida

- **Network Security & Vulnerability Assessment** – Conducted network scanning with Nmap, analyzed live traffic using Wireshark, and Identified security gaps and proposed solutions to enhance system defenses.
- **Cyber Threat Analysis & Exploitation Techniques** – Explored Google Dorks for information gathering, studied keyloggers and brute force attacks, and gained hands-on experience in malware analysis and Windows registry security.

Remote Intern (Front-End Developer)

Nov 2021 – Jan 2022

IT-Networkz infosystem Pvt. Ltd., Nagpur

- **Web Designing:** Learned HTML, CSS, and JavaScript frameworks for developing interactive and responsive websites. Developed an interactive portfolio website to enhance development skills and showcase projects.
- **Salesforce:** Learned to build apps within Salesforce, manage customer data, automate processes, analyse data, and create personalized customer experiences.

PROJECTS

Ai ChatBot – Team Project | GCOEJ

Feb 2024 – May 2024

- Built a chatbot capable of natural language conversations, weather updates, and news delivery.
- Integrated text-to-speech functionality and multiple public APIs (NewsAPI, WeatherAPI).
- Addressed module bugs and improved system performance using Python libraries like NLTK and Scikit-learn.

Personal Portfolio – Front end project

July 2024 – Aug 2024

- I developed a personal portfolio website to showcase my skills, projects, and achievements. The website is designed with a user friendly interface, responsive layout, and interactive elements to ensure a seamless user experience. It highlights my expertise in web development, incorporating technologies such as HTML, CSS, and JavaScript. This project allowed me to demonstrate my creativity, enhance my coding skills, and establish a professional online presence.
- **Technologies Used:** HTML, CSS, JavaScript, DOM Events.
- **URL:** [Personal Portfolio Website](#)

Kalinga Jewellery – Front end project

July 2024 – Aug 2024

- Build a responsive website using HTML5 and CSS3 with a mobile hamburger menu and smooth animations. Applied media queries and flexbox to ensure cross-device compatibility. Managed project using Git and GitHub for version control.
- **Technologies Used:** HTML5, CSS3, Responsive Web Design.
- **URL:** <https://rushabhb24.github.io/Kalinga-jewellery/>

EDUCATION

Bachelor of Technology (B.Tech) – Computer Engineering

Government College of Engineering, Jalgaon

Year of Graduation : 2025

Diploma in Computer Technology

Government Polytechnic College, Bramhapuri

Passing Year: 2021

Percentage: 84.11%

ADDITIONAL INFORMATION

- **Technical Skills:** Java , SQL, HTML5, CSS3, JavaScript, React.js , REST APIs, Bootstrap, Tailwind CSS, Git, Working with Linux Os, Manual Testing, Ms-Office.
